DETAILED ACTION

Claims 7-15 are pending and in condition for allowance.

Information Disclosure Statement

The information disclosure statements (IDS) submitted on December 22, 2005 and June 15, 2006 were correctly filed. The submissions are in compliance with the provisions of 37 CFR 1.97. Accordingly, the IDS's were considered by the Examiner. Please refer to Applicant's copies of PTO-1449, submitted herewith.

Reasons for Allowance

Applicant's invention is drawn to a process for preparing perindopril and its pharmaceutically acceptable salts. Preparation and use of perindopril was described in European Patent No. 0049658 A1, issued April 14, 1982. However, the synthesis disclosed in the '658 patent is similar to Applicant's claimed invention in that the end products are identical. The closest art of record is Applicant's own invention disclosed in US Patent Publication No. 2005171165 A1, published July 4, 2005. The '165 publication does not follow the same reaction mechanism and therefore does not meet all of the limitations of the instant application.

Because there is no prior art which meets each limitation of the instant claims or which renders the instant claims obvious, **Claims 5-8** are ALLOWED.
